

# Invitation for IFGS Jungschmiedetreffen 2020

Most blacksmith events this year have been cancelled or postponed due to the COVID-19-Pandemic. We want to take together a stand that we as blacksmiths work with problems creatively and rather gear up than resign.

Therefore the young blacksmiths of the IFGS (Internationaler Fachverband Gestaltender Schmiede) invite all young and old smiths, metal designers and hobby smiths to this years Jungschmiedetreffen (meeting of young blacksmiths). Because a physical meeting isn't possible we have planned an online event.

The events topic is „Werkzeugkiste“. („toolbox“). We aim that every participant creates a tool for a common toolbox. The creation-process should be documented, to allow insights into the craft and spread the knowledge.

If the documentation comes as video, drawing or foto-documentation is up to you. The documentations will be gathered and published together for everyone accessible. In the final week of the happening there will be videoconferences in which the participants can exchange their experience about the different techniques.

With this structure it is possible for experienced blacksmiths to pass on their knowledge and we are able to learn from each other. The toolbox is afterwards available to borrow for blacksmith gatherings

More information about the project can be gathered from the IFGS young blacksmith website:  
<https://jungschmiede-ifgs.de/>

Looking forward to work together with you!

Your IFGS young blacksmiths

Patrick Beck, Emil Geiß, Paul Rosbänder, Marian Boschner and Tobias Wurzenrainer
